

LIBERTY BELL RECTIFIER TRAINING

OCTOBER 12 & 13, 2022 • Blue Bell, PA

Normandy Farm Hotel and Convention Center at the intersection of Morris Road and Route 202
Sponsored by the NACE/AMPP Philadelphia Section

The Liberty Bell Corrosion Course is sponsoring this special edition of rectifier training and trouble shooting, to provide the Corrosion Control Industry with training that was postponed or canceled, in recent years.

Attendance can provide professional development for certification retention and allow companies to have field personnel trained in rectifier operation, maintenance and problem solving.

The Rectifier Training will be conducted by C. M. Nelson a recognized rectifier specialist in the corrosion control industry. The class will include: hands-on classroom activity, discussion & trouble shooting. Modified rectifier units will be utilized which allow students to view the internal components & wiring of a rectifier.

**Registration fee is \$400.00
which includes;
Lunch & Break Refreshments
each day. There is plenty of
FREE Parking at the Training Facility.**
